

# 5.5MM LONG JOHN DELTA FLEX SEMI TECH WETSUIT

A unique superstretch DFN-Ultragrade™ neoprene material. An internal lining provides extra warmth, insulation and comfort, due to our unique Ti-Ax® Thermacote® titanium 'terry' lining, and incorporates an additional anti-bacterial coating.

Heavy duty triple-glued & blind-stitched seams and the best quality neoprene.

The pre-formed 'shaped' arm/leg sections and the unique ergonomic cut of this semi-dry suit, provides maximum comfort and the ultimate diving flexibility.

Manufactured from superstretch neoprene.

- 5.5mm long john - Ti-Ax® Thermacote® titanium lining
- Full length rear entry zip with smooth-skin flush-guard
- Unique integrated heat retaining 'Thermal Shield' vest
- All seams triple-glued and blind-stitched for security
- Single lined smooth-skin neoprene ankle/wrist seals
- Zip fastening ankle and wrist over-seal warmers
- A shortie can be worn over the long john for colder waters
- Includes superstretch 5mm neoprene air vent hood
- Available gents & ladies sizes : S, M, L, XL, XXL
