

80L BLACK MESH HOLDALL

Compact, durable and lightweight, the mesh holdall bag is perfect for storing all your dive gear.

Padded air mesh walls are designed to protect delicate gear while allowing the bag to dry quickly.

The tarpaulin sleeve pocket on the front of the bag provides a dry spot for your hip while also being able to hold small items.

Compact

The mesh bag is designed to be easy to travel with, collapsible and can be packed easily for your trip.

Quick Drying

A padded air mesh body means the bag will dry quickly while continuing to protect your most delicate gear.

Easy To Carry

Thick wrap-around webbing strips with a padded handle make it comfortable on the hands, while nylon D-rings are included for an optional shoulder strap.

Reinforced Zips

Locking corrosion resistant zippers with extended pullers make for a long-lasting zip that you can rely on.

Lightweight

Weighing in at approx. 1kg when empty, the bag is perfect for those unexpected mid-trip excursions.

Capacity: 80L

Dimensions: 740 x 340 x 320mm

Weight: approx 1kg
