- Fast donning and doffing with sand tolerant moulded velcro cummerbund.
- Non-magnetic.
- Available with 750kg helicopter lift fittings as option.

DESCRIPTION

A knife resistant diver's surface buoyancy vest designed specifically for the Incursion-CMR rebreathers and tactical vests, to keep the diver on the surface when required.

Below: reverse side showing lift point and RM option for rear mounting of the rebreather.

Above: donning involves fastening a single stretch cummerbund with its high strength moulded velcro. Shown expanded above, for 60" chest, for visibility of the side attachment. The armour plate carriers are internal: the side of the rear carrier is visible above.
