

## ASSET RECOVERY

**DEPLOYED = FLOAT RELEASED**

A small device that can be mounted to a diver or high value equipment, once a set depth is exceeded the system will fire and inflate a lined buoy to the surface. Designed to assist in identifying a lost diver or piece of high value equipment and aid in training scenarios to indicate when a diver has dropped below the set depth.

## TECHNICAL

Approx. L\*H\*D: 150 x 115 x 85mm

Approx. weight: 350g

Depth settings: 7 - 50m (Model Dependant)

Reel lengths: 10 -50m

Co2 cartridge: 16g

Buoy diameter: 350mm

## LENGTHS AVAILABLE

ND0003630 (15m)
