

# MTP REVERSIBLE NEOPRENE HOOD

Manufactured from 4mm superstretch neoprene, this hood offers two 'reversible' options.

With increased flexibility and comfort and including our unique Ti-Ax® heat reflective technology, for superior thermal properties, with an external MA stretch nylon heavy-duty coating, for increased longevity and durability.

The hood combines supervent technology with the added comfort of our unique superstretch neoprene.

Our one-way supervent valve removes trapped air from the inside of the hood, increasing comfort and ensuring a perfect fit throughout the duration of the dive.

Specially developed with perforated ear pieces to allow communications systems to be used. The user can easily accommodate a radio headset.

Suitable for use with wetsuits or drysuits, for the ultimate diving combination.

- Constructed from superstretch neoprene
- The supervent system quickly removes trapped air
- Unique Ti-Ax® coating for superior thermal properties
- External MA heavy duty coating for increased longevity
- Equally suitable for use with wetsuits or drysuits
- Sizes available: S, M, L, XL

*\*Printing may vary dependant on size ordered*
